Objective 6: One billion dollars annual income 2 years after the release, or reach break even within 2 years
Goal 1: To profit from Golden Meadows
Influencer 14: The chinese gaming industry is increasingly competing in the international market
Influencer 13: The targeted user groups are easily convinced to pay in games.
Means 19: Outsource non core-mechanic development
Influencer 12: The employees morality can stop profit-focused implementations
Means 22: Show pop-up ads in Golden Meadows
Influencer 19: Under the Marketing Practices Act, any advertising method considered misleading, aggressive, or harmful is prohibited.
Influencer 21: The use of pop-up ads stops many gamers from enjoying a game
Influencer 18: Full-screen pop-up ads are prohibited for gambling operators if they are intrusive or encourage excessive play
Influencer 27: Advances in AI and LLMs have decreased required software-development effort
Means 21: Use AI for maintenance of Golden Meadows
Means 20: Use AI in the development of Golden Meadows
Means 23: Use third party AI tools
Influencer 25: Integrating proprietary AI IDEs and LLM APIs creates deep code dependencies and high technical switching costs
Means 17: Offer optional premium memberships, that are paid monthly
Goal 8: To generate recurring revenue from the player
Means 12: Sell user data to advertising companies
Influencer 9: Legal constraints complicate implementation
Means 11: Collect user data
Means 24: Implement a stable (club) system in the game
Goal 6: To build a large player base
Means 25: Organize community events
Influencer 17: Social media trends tend to stir the direction of the players focus
Means 8: Collaborate with horse brands.
Goal 9: To establish a strong recognizable brand
Objective 2: Gold Meadows is in the top 5 most searched games on Google one year after release
Influencer 8: Many riders in real life use horse equipment that is merchandise
Means 7: Collaborate with real-life horse competitions
Means 9: Hire influencers who promote the game
Means 13: Integrate a payment provider, that is working on various devices and for various currencies
Objective 3: Receive 4000 daily microtransactions by the end of year 1
Influencer 26: High technical switching costs between payment providers
Goal 4: To get users to make payments inside of Golden Meadows
Means 14: Integrate various in-game currencies
Means 15: Create a premium membership for Golden Meadows
Means 16: Implement chances to get special edition horses in Golden Meadows.
Means 18: Give premium players of Golden Meadows daily login rewards
Influencer 10: With different in-game currencies available, monetization can be maximised, as the players behaviour can be controlled.
Influencer 11: The targeted user groups are easily convinced to gamble in games.
Objective 5: Maintain 60% monthly retention after 2 month after the release
Goal 10: To have a high long-term user retention
Influencer 28: Short form media dominates the screentime of younger demographics
Means 27: Make Golden Meadows visually pleasing
Influencer 20: Advances in visual graphics technology
Means 33: Implement breeding mechanics
Objective 8: Reach 4 out of 5 stars for Golden Meadows on Google Play 3 months after the release
Goal 2: To make Golden Meadows enjoyable to play for the target market
Means 31: Implement genetics mechanics
Means 30: Add competitions in the open world.
Means 32: Add stable competitions to Golden Meadows
Means 29: Add world-wide competitions in Golden Meadows
Means 28: Develop an horse-focused open world
Influencer 29: Casual mobile games offer instant gratification without the learning curve of complex simulation mechanics
Influencer 22: The targeted user groups are competitive
Objective 4: Acquire 100.000 active players within 1 year
Goal 5: To get many horse-interested users to play Golden Meadows
Influencer 16: There is one (1) established competitor game with high market share and high cost of switching
Influencer 15: Parents control purchasing decisions for younger players and are concerned about addiction and microtransactions
Means 26: Make Golden Meadows free to play
Influencer 30: Real-world equestrian hobbies require high financial investments that are inaccessible to many people
Influencer 1: Steam users and streamers often give a lot of attention to new games from unknown developers
Influencer 2: Early access creates public content before the official release, possibly making users less curious
Objective 1: Have 9.000 followers on Steam before the release
Goal 3: To gain a community that is interested in all of the company's games
Means 1: Create an early access to the game
Means 2: Make Golden Meadows available on Game vendors
Influencer 3: Early access gives an opportunity to fix errors before the official release
Influencer 4: Steam allows product placements and collaborations in games
Influencer 5: Steam prohibits intrusive advertisement in games
Means 6: Encourage YouTubers to upload gameplay
Means 3: Encourage Streamers to stream gameplay
Means 4: Allow Streamers to stream gameplay
Means 5: Allow YouTubers to upload gameplay
Influencer 6: The targeted user group is easily influenced by influencers promoting new games
Means 36: Involve Players in Beta testing
Influencer 24: Low Development Budget
Means 35: Implement anti cheat systems
Goal 7: To ensure the same quality of game mechanics for all
Objective 7: Complete Beta testing 1 month before release
Means 34: Invest in scalable Infrastructure
Influencer 23: Cloud infrastructure providers have high pricing power, making server costs high
